I. THE PARTIES

1. H&S Tool, Inc. ("Plaintiff" or "H&S") is an Ohio corporation having its principal place of business at 715 Weber Road, Wadsworth, Ohio 44281.

2. Upon information and belief, Esco Tool is a Massachusetts company having its principal place of business at 50 Park Street, Medfield, Massachusetts 02050 ("Defendant" or "Esco"). Upon information and belief, Defendant engages in business in the State of Ohio, including in this judicial district.

II. JURISDICTION AND VENUE

3. This action arises under the patent laws of the United States, Title 35 of the United States Code. This Court has original and exclusive jurisdiction over this action under the above statutes, including 35 U.S.C. § 271 *et seq.* and 28 U.S.C. §§ 1331 and 1338(a).

4. Personal jurisdiction exists generally over the Defendant because it has sufficient contacts with the forum as a result of business conducted within the State of Ohio and within the Northern District of Ohio. Personal jurisdiction also exists specifically over the Defendant because of its conduct in making, using, selling, and/or offering to sell, products within the State of Ohio and within the Northern District of Ohio.

5. Venue is proper in this Court under 28 U.S.C. §§ 1391(b), (c), and (d).

III. Count I: PATENT INFRINGEMENT

6. Plaintiff repeats and re-alleges the allegations in paragraphs 1-5 as though fully set forth herein.

7. Plaintiff is the owner of all right to, title to, and interest in, United States Patent No. 6,955,507 ("the '507 Patent"), issued on October 18, 2005, for an invention entitled "Tube Milling Head". A true and correct copy of the '507 Patent is attached hereto as Exhibit A.

8. The '507 Patent is presumed valid and enforceable under 35 U.S.C. §282.

9. Plaintiff is also the owner of all right to, title to, and interest in, United States Patent No. 5,542,177 ("the '177 Patent"), issued August 6, 1996, for an invention entitled "Boiler Tube Bank Repair". A true and correct copy of the '177 Patent is attached hereto as Exhibit B.

10. The '177 Patent is presumed valid and enforceable under 37 U.S.C. §282.

11. Upon information and belief, Defendant has been and is infringing the '507 Patent by making, using, selling, or offering for sale, in the United States, without authority, products that fall within the scope of certain claims of the '507 Patent, including, but not limited to, the products known as the Esco Membrane Removal Head and the Wart Membrane Removal Head. (Exhibit C)

12. Upon information and belief, Defendant has been and is infringing the '177 Patent by making, using, selling, or offering for sale, in the United States, without

authority, products that fall within the scope of certain claims of the '177 Patent, including, but not limited to, the products known as the Esco Membrane Removal Head and the Wart Membrane Removal Head. (Exhibit C)

13. Defendant's making, using, selling, or offering for sale, in the United States, without authority, products that fall within the scope of certain claims of the '507 and '177 Patents, amount to acts of infringement under 35 U.S.C. § 271 (a). On information and belief, such infringement is willful.

15. As a result of Defendant's acts of infringement, Plaintiff has been and continues to be injured and has sustained and will continue to sustain substantial damages in an amount not presently known.

16. Plaintiff has no adequate remedy at law against these acts of patent infringement. Unless Defendant is preliminarily and permanently enjoined from its infringement of the '507 and '177 Patents, Plaintiff will suffer irreparable harm.

IV. Count II – Contributory Infringement and Inducement of Infringement

17. Plaintiff repeats and re-alleges the allegations in paragraphs 1-16 as though fully set forth herein.

18. Defendant has had notice of the application that led to the '507 Patent, i.e., Application Serial No. 10/721,539, published as US 2005/0053432, since at least September 30, 2005, if not earlier. Defendant has had notice of the issued '507 patent since at least October 26, 2005. Plaintiff gave notice to Defendant's counsel of the '177 Patent on February 16, 2006.

19. Defendant has knowingly and actively induced, and continues to induce, infringement of the claims of the '507 and '177 Patents by others under 35 U.S.C. § 271 (b), and has contributed, and continues to contribute, to the infringement of the claims of the '507 and '177 Patents by others under 35 U.S.C. § 271 (c).

20. On information and belief, Defendant sales or offers for sale its infringing products knowing the same to be especially made or especially adapted for use in the claimed combinations and methods of the '177 and '507 Patents.

21. Defendants infringing products are not a staple article or commodity of commerce suitable for substantial non-infringing use.

22. With notice of the existence of the '507 and '177 Patents, Defendant knowingly and actively induced, and continues to induce, others to use the inventions set forth in certain claims of the '507 and '177 Patents, including without limitation by Defendant's sales and offer for sale of infringing products to, *inter alia*, Sterling Boiler and Mechanical, Inc.; Minnotte Corp.; and Covanta Energy Corp.

23. With notice of the existence of the '177 Patent, Defendant sells and offers for sale, within the United States, apparatus for use in practicing the patented methods set forth in the claims of the '177 Patent, which constitute a material part of the '177 Patent's claimed invention, knowing the same to be especially made or adapted for use in an infringement of the '177 Patent, and which are not a staple article or commodity of commerce suitable for substantial non-infringing use. As such, Defendant has contributed, and continues to contribute, to infringement of the

'177 Patent by others through its sales and offers for sale to, *inter alia*, Sterling Boiler and Mechanical, Inc.; Minnotte Corp.; and Covanta Energy Corp.

24. The foregoing acts of Defendant constitute active inducement of infringement of the '507 and '177 Patents under 35 U.S.C. §271 (b) and contributory infringement under 35 U.S.C. §271 (c).

25. As a result of Defendant's acts of active inducement of and contributory infringement, Plaintiff has been and continues to be injured and has sustained and will continue to sustain substantial damages in an amount not presently known, to be proven at trial.

26. Plaintiff has no adequate remedy at law against these acts of patent infringement. Unless Defendant is preliminarily and permanently enjoined from its infringement of the '507 and '177 Patents, Plaintiff will suffer irreparable harm.

V. PRAYER FOR RELIEF

Plaintiff, H&S Tool, Inc. respectfully requests that judgment be entered in its favor and against Defendant and that the Court grant the following relief to Plaintiff:

- A. Declare that the '507 and '177 Patents are valid and enforceable;
- B. Declare that Defendant has infringed the '507 and '177 Patents;
- C. Award direct damages for patent infringement, enhanced by a suitable multiplier, given that the infringement is believed to be willful;
- D. Enter a preliminary and thereafter a permanent injunction against Defendant's direct infringement of the '507 and '177 Patents;
- E. Enter a preliminary and thereafter a permanent injunction against

Defendant's conduct that amounts to active inducement of infringement and/or contributory infringement of the '507 and '177 Patents;

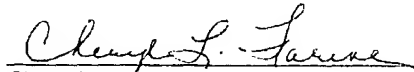

- F. Award pre- and post- judgment interest on the damage award, together with attorneys' fees and costs; and
- G. Such other relief as the Court deems just and proper.

VI. JURY DEMAND

Plaintiff hereby demands a trial by jury on all issues so triable.

Dated: April 12, 2006

Respectfully submitted.
